LABOR RACKETEERS INDICTED

SAN DIEGO STAYS OPEN SHOP

de Aryan Comments

Thursday night 8:30 KGB (dial 1330)

From Seattle comes the news of federal indictments against the Dave Beck racket who controls the A. F. of Labor in that city. The federal grand jury indicted 29 individuals, nine companies, two unions and a trade association for conspiracy and anti-trust law violations in the building construction industry.

In San Francisco Judge A. F. St. Sure ruled that labor unions and their representatives are not exempt from anti-trust law provisions. He directed representatives of Oakland and San Carpenters and Joiners, an A. F. L. union, to Francisco locals of the United Brotherhood of present their records to a federal grand jury studying anti-trust law practices in the San San Francisco bay area building industry.

In New York, Ben Gold, president of the Communist-dominated International Fur Workers' Union and ten associates have been found guilty of Sherman anti-trust law violations, restraining trade in the fur industry.

In Los Angeles a special federal grand jury rendered 268 indictments against individuals and organizations in various cities of Southern California for violations of the Sherman anti-trust act.

In San Diego the 1939 county grand jury published a detailed record of the excesses of the Butchers' union which is restraining trade along the same lines that the indictments were rendered in the above mentioned cities. It will take a little time for the government to clean up San Diego as they are cleaning up Seattle, New York, San Francisco and Los Angeles, but they are bound to come here, too. For this reason I am advising employers and employees in all industries to keep careful notes on the fellows who use highpressure methods to force them to either join unions or submit to union dictation. By keeping notes, remember to put down the date, the place and as much of the conversation as possible.

"Stabilizing" Is A Felony

Whenever a labor organizer approaches you and tells you that the union will "stabilize" wages and prices when it gets control of you and your industry, bear in mind that this constitutes a conspiracy to violate the Sherman antitrust act. There is also a corresponding law in California which I invoked several years ago when I helped break up the Florist racket in San Diego with the aid of the District Attorney. Employers should always make provisions that the conversation between them and labor organizers is recorded by a stenographer who is present or else listens in on an extension and notes every word. You will need that evidence during a trial when the government will prosecute those individuals who under pretext of bettering the working conditions of the poor working men, play a racket upon employees and employers alike, while raising prices to the public.

It is a violation of the California Labor Code to force any employee to join a union. All these preferential shop and closed shop contracts violate the personal liberty of the individual worker. Employers can be sent to jail for forcing employes to join a union by threatening to fire them, to comply with a closed shop or preferential union contract. Any organizer who suggests that it will be good business for you to submit to union control because it will "stabilize" prices is violating the anti-trust laws. Make a note of it and exactly what he said.

Interference With Management

In San Diego the building industry is being threatened with strikes and boycotts unless independent contractors sign up with labor unions and submit to control over their employees as well as control over the management. When a labor union runs a contractor's business, the prices go up because a carpenter, for example, is not permitted to use a paint brush to save his soul. A painter has to be called in even if the job can be done in not more than five minutes. For the five minutes work the painter gets half a day's pay.

Hiring Hall Dictatorship

A carpenter cannot help dig a ditch for pouring the concrete foundations of a small building where only a few men are employed. He has to stand idle and merely work on the forms for the foundation. A carpenter must not touch a brick to lay a floor for a patio, a bricklayer has to be called for. Such an arrangement makes more jobs, but it raises the cost and the owner of the building has to pay this additional price for fiddling around when competent men could do various types of work which they have been doing for years under the present Open Shop system. Just now that building is taking a spurt in San Diego this union high pressure organizing activity is scaring people off who otherwise might build new homes. The price of building goes up from 20 to 30 percent under Union control. A bricklayer, for example is not permitted to lay glazed tile under union control. And the contractor cannot select his own help. He has to take what the union hiring hall sends him and pay at least half a day's wages to a man who is no good before he can fire him and then he does not know what kind of a fellow the hiring hall sends him next. Besides the union bricklayer is not going to do the best work he is able to deliver. He will tell the boss how many bricks he will lay a day, according to union rules. And every worker also has his slow-down rules fixed by the union so as to make jobs last longer, but the owner of the building has to pay for all this slow-down procedure. A carpenter is not permitted to nail sheeting, a job which anybody who can swing a hammer is able to do. And the worst of all things under union control is that they fix wages that have to be paid to apprentices, rough carpenters and for finished carpenter work. But the unions do not guarantee that the man they send out and whose wage they fixed is also qualified to earn it. So the contractor must pay higher wages for inferior work or get in bad with the union delegate and, of course, he charges the owner of the building with the raised cost. To do away with such rackets the anti-trust law is now being invoked by the government and I am giving you all this information so you will know how to protect yourself against high pressure racketeers and that you have no business giving in to them to be sent to jail together with them as the government proposes to do in the other cities where employers were foolish enough to conspire to stabilize, as they call it, to stabilize their industry.

LA MESA WOMAN IN PSYCHOPATHIC WARD

Father-in-Law Swears Out Warrant

Mrs. Augusta Cora Russell was committel to the psychopathic ward of the county hospital on Sunday, April 27, upon a warrant issued by Superior Court Judge Arthur L. Mundo and signed by her father-in-law James T. Russell, of La Mesa. The charge was stated as endangering the life of complainant. Trial before a jury comes up today (Monday) in Superior Court.

PUT HIM ON ICE

Now that medical "science(?)" has succeeded to freeze people and sustain them in suspended animation (most of them are dead anyway and don't know it) an old gentleman, 73 years old went to the dental clinic at the county hospital to have two teeth extracted that bothered him, and he should have for mercy's sake been put in the refrigerator to keep him out of his misery in an unconscious condition; for the clinic set the date for extraction for **May 31**, when he appeared on April 27. He has to go through **33 days of hell**; that's the way the county dental clinic is conducted .

Stop Buying Gold !

Hon. Hiram Johnson, Senate Office Bldg., Washington, D. C.

My dear Senator:

You meant well when you introduced the bill that prevents foreign governments, in default on their debt payments to the U. S., from borrowing more money here. But the slick clique of Morgenthau, Baruch, Roosevelt, Cohen & Rotschild outwitted you and US taxpayers, by resorting to the "emergency" expedient of buying gold and silver at an exorbitant rate. From what I read in the papers we **donated to them over TEN BILLIONS** of dollars while their debts to us are less than that.

What are you doing to stop this outrage of throwing us into debt to finance the armaments of foreign governments. What about the ill-clad, the ill-housed, the ill-fed in America who are taxed to help foreigners murder each other. Is that our contribution to democracy?

Stop Buying Gold !

Hoping to hear from you in detail,
I am sincerely yours
C. LEON de ARYAN.

Stop Buying Gold !

(From Radio Talk, KGB, Thursday 8:30 p. m.)

Why is our treasury continuing to buy gold? Senator Johnson had a law enacted to stop lending money to defaulting governments and in its place we are now donating more money to foreign governments than they ever borrowed from us in the last world war. Why should we in America with our unemployed and one third of the population ill-clad, ill-fed and ill-housed, donate 10 billion dollars to the French and British governments by buying useless gold at a fictitious price. We are paying not only for the original cost, but we also continue to pay interest to the bankers who loaned us the money to donate 10 billion dollars to foreigners. If that is not the limit of outrageous imposition on us taxpayers, I ask you what is it? No wonder the world calls us Americans a bunch of suckers and plays us for suckers all the time.

HENRY CRAMER WINS FIRST PRIZE

The Cramer Bakery is being boycotted by organized labor, encouraged by the legislation of the Roosevelt regime. Henry Cramer urges voters to pepetuate that regime by voting for Roosevelt delegates next Tuesday.

Henry Cramer is due to be decorated with the medal of . . . . .

Well— why not say— the sky-blue pink glass neck-tie.

CANNON — FODDER

Q—How does it come that "innocent" people are drafted into armies to murder other innocent people like themselves?

A—They are not innocent. Luke 19, verse 27.

People who refuse to take the initiative to self-government become slaves and are drafted as cannon-fodder.

POLICE WOMEN NEEDED

(From Radio Talk, KGB, Thursday 8:30 p. m.)

I see where our Chief of Police has established a Juvenile Department and taken away the one policewoman from her regular work of patrolling the night life establishments to work now under the Juvenuile Department. But one policewoman cannot possibly look after the grownup women and the juveniles at the same time in an area as large as San Diego. It is remarkable how our authorities love to pull the wool over the people's eyes. Chief "Pete" seems to repeat the tactics of Uncle Pete, his predecessor, but he is fooling nobody but himself

War's Aftermath

Is Syphilis Democracy ?

Syphilis is a disease contracted by Jews who cohabited with Abyssinian wenches; they spread it all over the European continent. It was not much known in America till Woodrow Wilson sent our young men, by drafting them, to Europe to fight for "democracy". Then is when the returning soldiers spread this dreaded disease all over this country according to medical statistics. But syphilis is only one of the by-products of the war for "democracy". If civilization can be had by mass-murder, then, Jesus Christ was a traitor to mankind, for He gave His life that even fools may see the exemplary conduct by which alone freedom and human unfolding can reach the goal set to it by divine Providence when God made men to grow into His image and likeness.

The other aftermaths of the Jewish war for "democracy" are the depression, the unemployment, the destitute condition of old people who lost their savings in the crash, the dislodgment of American and world commerce. It brought not only syphilis to this country, but cripples, "veterans" whose nerves and minds were shocked into invalidism with its resultant burden of pensions upon the taxpayers. The penalty America is paying for disregarding the warning of George Washington not to ally itself with European chicaneries, is leading us again into the trap set by the Jewish International Banking group who dangle war profits before our farmers and industries if we only give up democracy in this country to regiment ourselves in civil life, industrial life, military dictatorship and make Roosevelt God-Almighty to do with us as he sees fit in the execution of the Jewish Plan of ruling the world by corruption of all the ideals Jesus Christ represented and set His life as the example to pattern after. If ideals can be realized by mass murder, Europe should be the ideal place to live in, for they have been at it for thousands of years. But Jesus Christ is right and Woodrow Wilson and Roosevelt are wrong. If we want more syphilis, more poverty, more cripples, more debts, more unemployment and complete dictatorship the way is open: Join the war, enthrone the Bank of England, make Roosevelt dictator and goodbye America and real democracy for two generations to come.

PERFIDIOUS ALBION

England has no intention fighting its own battles. With studied cruelty and treachery it is spreading the "war" to the neutrals, letting them bleed to death, by promising "allied help". First it pulled France in, then Finland, now Norway and is spreading towards the Mediterranean in hopes that so many other nations will be embroiled in a war with Germany, that England will finally skim the cream at the peace table again. That the neutrals are murdered for England's profit means nothing to the House of Rothschild and the British crown. They figure that such is the lot of "Gentiles" to bleed for the profit of the "select" people.

LABOR UNIONS WANT 'DOLE' BANK

(From Radio Talk, KGB, Thursday 8:30 p. m.)

From Santa Cruz, California, comes the news that 350 delegates from labor organizations attended a conference at which recommendations were made to abolish banking by private banks and provide loans at 2 percent interest to agriculture and industry from a government-owned national bank. By detailing functions of business to politicians this would lead to the same system by which the Bank of England controls effectively all of British industry and the people are subjects and not freemen, as we are supposed to be in America. Whenever politicians take over functions of free enterprise, we return another step to the conditions against which our forefathers rebelled when they separated from England.

Declared a legal paper of general circulation for the County and City of San Diego, by Superior Court order, January 15, 1932.

Entered as second-class matter March 27, 1931, at the postoffice of San Diego, California, under the Act of March 3, 1879.

The Thought of the Hour

DO NOT SELL AMERICA SHORT

This is no time to be a defeatist. Even though Roosevelt and his Zionist, international "advisers" are doing everything in their power to ruin the U. S. that the Jews may so much easier slap a mortgage on all of us, which they are doing through the national debt and the buying up of gold and silver with borrowed money for which we are charged interest upon interest by Morgenthau;— bear in mind, that as it was possible to put that Apostate in the White House and in 8 years destroy one third of the "middle class" by bringing it to the status of permanent "unemployables"; in the same manner it is possible to reverse the whole process. It works both ways.

While Roosevelt hopes and works to get this country into the war on the side of the Jewish-British Alliance, we are still Americans who remember that by murder nothing has been settled ever. The Europeans are fools to have resorted to armed conflict, no need us doing the same. We have a higher mission and God is with us. We are to establish the rule of intelligence over brute force. And to do so we cannot yield to beastly minds.

The defense is of the spirit. Let us not be dis-spirited, let us not imagine that we are helpless just because an apostate scoundrel sits in the White House and a bunch of Jews are working overtime to over-run all America, take possession of the key positions and railroad us into the war.

We do not yield to the idea. We must not sell America short. There is enough intelligence in the American people to resist this surrender to destructive forces. Our children shall not bleed upon the battle fields for the profit of Judah and the rule of Britain. We have enough intelligence and willpower to place our faith in better methods, and we are the only people upon the face of the earth who can save democracy by not supinely submitting to be dragooned into war.

The Jew Deal has burst an artery, its bleeding to death. Let's give it no blood transfusion, not the blood of our youth!

JEWS PLAN WORLD RULE

Must Distribute Gold Store, Says Van Zeeland

WASHINGTON,— Paul Van Zeeland, former prime minister of Belgium, told organized American business men tonight that the fate of civilization would depend largely on the part this country played in a reorganization of the economic world after the European war ends.

Van Zeeland mentioned as one possible action after the war the redistribution of this country's huge gold stores through loans. Without referring directly to the fact that the United States now has the bulk of all the gold in the world, he said:

"In order to function properly as an international standard, gold must be distributed sufficiently widely. I have no definite solution to offer; but it seems evident that one could not at the same time pretend to keep gold as an international standard and concentrate it in one corner of the globe."

Van Zeeland also said that the "spirit of freedom and expansion" should not be limited to goods and capital in the reorganized world, but should extend to immigration.

PROTOCOLS OF THE ELDERS OF ZION

Is it not remarkable that after Jewry makes hysteric denials of the authenticity of the "Protocols of the Elders of Zion" their stooge from Belgium comes to the U. S. and **advocates the very things** the Protocols exposed to Gentile minds, if they are smart enough to take warning.

The "plan in Action" is to corner **all the gold** in the world under one Jewish head (Henry Morganthau) and sock the Gentiles for buying it, donating it to the Jews, socking the suckers **interest** forever on the public debt of buying it, and then "distribute" it back to the Jewish bankers throughout the world to control commerce and **politics.**

It is being done right before our eyes. Now they also demand unrestricted Jewish immigration into the U. S. to make sure that all key positions are held by Jews and with sufficient "troops" to enforce "boycotts" of natives.

—o—

NAZIS CONSIDERATE OF CIVILIAN LIVES

NEW YORK,—A visitor from Scotland who was a witness to several Nazi air raids on the Firth of Forth talked engagingly the other day about his experience. Asked whether any particular event remained uppermost in his mind, he replied without hesitation: "The considerateness of the attacking aircraft." Pressed for details, he related how a Heinkel bomber was hit by anti-aircraft shelling. The enemy plane rapidly lost altitude, one engine apparently not functioning. Presently the pilot got his ship under control again and headed for the sea at low speed barely above the roof tops. Everybody watched breathlessly. As soon as the plane was over deep water all its bombs were released without the chance of any harm being done.—National Whirligig.

—o—

DISILLUSION

She picked her boy when he was young and green,
While of this world he had but little seen,
But as he reached maturity in turn,
There came a lesson hard for her to learn.

He showed a taste decidedly his own
And thus behold she soon was left alone.
For years they had been married till that day
There came another girl to cross his way.

Her efforts, then, to hold him were in vain
The kid had turned into a fullfledged man.
As such he had to follow his own mind
And she was left a divorcee behind.

—Otto Schkoelziger.

MORALITY IS OF THE ESSENCE

L. Dumm-ass Beckwith, originator of the "Asinine Social Science" of Stockton—or the Stockton ASS—produces the following gem in THE FORUM:

> "Intelligence is enough to make people protest injustice. Men do not have to be honest to object to being robbed, their primary instincts are enough."

"Primary instinct" is enough for a thief to protest when he is robbed, but it is not enough to keep the thief from planning, scheming and robbing others.

It takes morality to apply reciprocity of "primary instinct" in the conduct with one's fellow businessman. Since government is to be put on a business basis by which it is not to collect anything but the RENT for its actual services rendered, the thieves refuse to place such a rule on the statute books. Each little thief imagines that he will get away with robbing others and does not want the existing rules changed. Just like a gambler objects to abolition of gambling. He hopes to get something for nothing and calls it "human nature" and "personal liberty".

Dumm-ass Beckwith does not know that morality is the **quintessence of intelligence.** And so he writes:

> (Quoting a corespondent) "—de Aryan emphasized that this system will be introduced and can work only when a sufficient number of people are **intellectually and morally honest** enough not to want to rob and be robbed of their products and the value of their own service".
>
> (Beckwith comments on the above quotation from his correspondent as follows: "It is true that intelligence is necessary; but it is not true that morality is necessary".

Golden Rule is Morality

Where the individuals are prompted by the "primary instinct" of protesting an injustice, but are eager to inflict it on others, we have the present-day conditions where people bellyache, but persist in maintaining the evil.

U. S. SAVED "DEMOCRACY" ?

The commonest cause of heart disease is syphilis, acquired, congenital, or hereditary, and at the present time is an expression of the epidemic of syphilis which was initiated in this country by the first World War.

Facts, not fancies, determine the cause of heart deaths.—F. H. C., M. D., Vox Pop, Liberty Magazine.

JUVENILE DELINQUENTS

FINAL REPORT TO THE 1939 SAN DIEGO GRAND JURY ON THE ANTHONY HOME

Your Committee has investigated the above department and has found a very satisfactory condition and herewith submits its findings and recommendations.

Anthony Home

The Anthony Home located in Mission Valley is under the supervision of a very fine woman, who has been there twenty years, and operates it economically and efficiently with the aid of a splendid crew of assistants.

We found this institution in first class condition, every room neat and clean, very good food, well cooked and served; the cook has been there twenty years also. Recreational and educational facilities are good, but can be improved. The office is well regulated, with a system of bookkeeping that gives you information on any subject pertaining to the Home, at a moment's notice.

Recommendations

The Anthony Home should have more room and the added wing and auditorium would help.

The feeble-minded children are a problem at the Anthony Home as there are no adequate resources for taking care of them and the County it seems should provide some means for doing this until such time as they can be admitted to a State Institution.

We attach newspaper clippings fully covering these subjects.

Respectfully submitted,
Fred C. Chanter, Chairman
Edward Kickham
Milton V. Wisdom.

—o—

Mexico continues to dig up silver for her feeble-minded neighbor to buy and bury back in the ground.

—o—

THE GODS NEVER DIE

Unto the seers upon Egyptian sand
The lifted veil of Isis must reveal
The final truth—the black Osirian hand
The everlasting crytogram unseal.

To those in Arcady, the wakened Pan
Shall pipe the hidden scale of nature's rhyme,
And Zeus, re-laureled by Olympus' clan,
In voice new-born, dispel the doubts of time.

And yet again, shall those who habitate
Beside the Seine, on lilied altar see
The resurrected Christ elucidate,
In Notre Dame's high mass, the last decree.

And thus, in every land shall Truth appear
Attuned to the vibration of its time,
Embodied in the form that men revere
As proto-typic of their race and clime!

—Juanita de Arana.

ENCOURAGING PRIVATE ENTERPRISE

Carlisle, in the Buffalo Evening News

Hetch Hetchy Sabotage

BY CLEM WHITAKER

SAN FRANCISCO,— This city, which was once destroyed by earthquake and fire—and poked its head out of the ashes, still smiling!—suffered an economic earthquake a few days ago which figuratively burned up everybody in town.

And there isn't a smile to be found in the whole city, from Nob Hill to the Mission.

The quake in question was engineered by Secretary of the Interior Ickes, who has been bickering with San Francisco ever since assuming office, and came in the form of a decision by the U. S. Supreme Court invalidating San Francisco's contract with the Pacific Gas & Electric Company for the distribution of Hetch Hetchy power.

The Hetch Hetchy contract, now rendered null and void, has paid the city $2,225,000 annually, which is a considerable sum of money, even for a city that sprawls over seven hills and sleeps half of its citizens in five or six adjoining counties. Translated into tax terms, invalidation of the contract means an immediate 28-cent increase in the San Francisco tax rate, unless some miraculous way can be found of reestablishing the contract arrangement which Mr. Ickes attacked and finally succeeded in outlawing.

Blow To Self-Government

Politically, Mr. Ickes' sensational blitzkrieg may have both State and national reprecussions—for the City by the Golden Gate, which had been considered safely in the Democratic column, up until last week, is now getting ready to pay through the nose for something it blames on the Roosevelt administration. And it doesn't care for it, thank you! If the election were held today, San Francisco and environs would go Republican in a big way, just to get rid of that guy, Ickes. And as a consequence, Democratic chieftains, who live in the City of St. Francis and used to enjoy it, are now burning up the wires to Washington demanding that the Raker Act be amended forthwith to permit a new and valid contract, or that Mr. Roosevelt petition the Supreme Court for a rehearing, or fire Secretary Ickes, or do most anything to take the heat off.

Economically, there are as many complications as there are politically. Just a year ago, San Francisco voters, for the seventh time, refused to vote $55,000,000 in bonds to build a power distribution system, despite Secretary Ickes' demands that the city go into the retail power business. At each election, the vote against the bonds has been heavier, and no San Franciscan in his right mind expects the voters to reverse themselves now that they've been blitzkrieged.

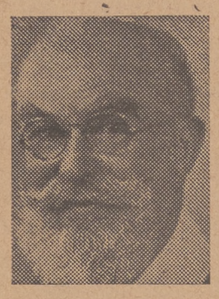
HEALTH-GERMS

By George Starr White, M. D.

Dear Editor of THE BROOM:

The "Let's Talk About Cancer" circular enclosed is from a stack of them I saw in a branch Post Office yesterday. This is a United States of America Post Office too!



Dr. Geo. Starr White

The "Women's Field Army of The American Society for the Control of Cancer" must be a cancerous gang to allow the Organized Medical Gang to "muscle in" on them in this manner!

A County Medical Society Doctor called on me recently to get "pointers", or try to stick me with some "pointers", or to try to make me envious—don't know which. I know he has made himself rich in cash thru the MIS-treatment of cancer. He asked me if the Cancer-Scare circulars were bringing me any new "business". I replied that SCARES of any kind caused a certain type of men and women, both, to run to doctors' offices for "help". He replied that "The Cancer-Scare Field Army" had made his office able to take in about ten thousand dollars a month more than formerly. He said: "Doctor, call every lump a cancer. The SCARE has started, keep it going—it makes business for all of us". I replied that the Undertakers had told me that it was making their business much better too. To this remark my Medical-Man caller retorted: "If one kind of scare will not kill the the peope off, another will. Europe has its scares, why not we have a kind that helps business as well as having to be on doles!"

This may all sound to the "faithful" as an "exception" to the rule among medical doctors. I say and can prove that the average medical doctor today is looking out to get in on all kinds of SCARES, and the politicians call around to collect "funds for the campaign". The Political Doctors even brag about it and claim that THEY got this "Women's Field Army" racket started "for the good of the Profession".

Well, Dear Mr. de Aryan, I am sorry the above is the truth, but TRUTH always has been harder to bear than lies. This is why I cannot help but think that before long our WOMEN of America, will awake to the fact that the Political Doctors of The Medical Trust have again made damnable fools of them. Some of our worst War Mongers belong to The Medical Trust, but the public has no way of finding it out from the "Public Press"!

Youthfully yours,
GEORGE STARR WHITE, M. D.
"YOUTH is a State of Mind
—Not a Time in Life."

* * * *

Excerpts from the leaflet——

Let's 'Talk' About Cancer!

WHAT IS CANCER?

"Each one of us is composed of millions of tiny units known as cells. Cancer occurs when these cells begin to grow in a lawless, disorderly fashion. It can be cured in its stages by x-rays, radium, or surgery, used individually or in combination. Cancer presents a very personal problem. It is not a great plague leaping from one to another. It is not contagious at all. Each case is limited to the individual in whom it occurs and the outcome of the case depends in large measure on that indivdual's alertness and wisdom."

WHAT CAN I AS AN INDIVIDUAL DO?

"YOU can have a complete physical examination once a year of all the sites where cancer is likely to develop.

" . . . YOU can enroll in the Women's Field Army and pay the dollar enlistment fee or make a contribution to its work. . . . . "

* * * *

Cancer cannot be "cured" by any of the means used by medical "science".—Editor.

Youth Is A State of Mind

(From Radio Talk over KGB, Thursday 8:30 pm)

Readers of THE BROOM will have noticed that our columnist, Dr. George Starr White of Los Angeles, closes his Health-Germs column always with the words: "YOUTH is a State of Mind—Not a Time in Life". And so the doctor continues to stay young. But he is not the only one. In last week's issue we carried an article written by a Philadelphia columnist in the EVENING BULLETIN about Charles H. Ingersoll, who, as you know, is the father of mass production in America. He introduced the idea by making Ingersoll watches at a dollar a piece. You will be quite interested to read this article in last week's BROOM. It reveals that our friend Ingersoll is 75 years young and as busy, if not busier, than many folks one third his age. But he is not alone in this.

Last week I went to one of my subscribers to renew his subscription to the BROOM. He invited me into the house and introduced me to his sister who is 90 years young. And the lady does not look a day over 50. She is neither bulky nor skinny, full of pep and as busy as can be. Since some of you might want to know who she is, here is her name: Mrs. Eliza Schlick and she lives at 1132 W. Washington St. While she is financially well situated and does not have to work for a living, she is busy keeping house for her brother and uses her spare time making hooked-rugs. She was working on one when I arrived and she showed me a number of them made after her own pattern. She is quite proud of her work and it is good. What gives her a kick is that so many people insist on buying some of her work because many enjoy having old fashioned, homemade hooked-rugs to give them a feeling of the good old times. I feel the same way about it.

Vital Facts

PREFACE TO THE FOURTH EDITION

Before releasing the fourth edition of VITAL FACTS ABOUT FOODS, the writer, widow of the illustrious author, has permitted herself the privilege of correcting statements presented or conclusions promulgated by the author that later facilities of research have found at variance with current accredited nutritional knowledge. These corrections have been commented upon either by new material, revealing up-to-date information and discoveries ascertained through recent nutritional research. These facts are advanced with no intention of treating irreverently the late Otto Carque's last dietetic masterpiece, but rather to supplement such findings as could not be proved to his satisfaction at the time of his conscientious probings with the facilities, laboratory technique and other scientific information then available to him.

Lillian R. Carque, Director

NATURAL BRANDS RESEARCH FOUNDATION, 4328 San Fernando Road, Glendale, Calif.

THOSE BELLY VEGETARIANS

A definition of or for **Vegetarianism** as given on Editorial page in **"The Vegetarian Messenger and Health Review"** published by The Vegetarian Society, 57 Princess St., Manchester, England:

Vegetarianism—That is, the practice of living on the products of the Vegetable kingdom, with or without the addition of Eggs and of Milk and its products (butter and cheese) to the exclusion of fish, flesh and fowl.

Comments solicited. — Editor, Vegetarian-Fruitarian-Humanitarian.

THE BROKEN TWIG

Why break a twig that I have spared
And leave it lying in the road
Where ants do make of dust
Its form for their abode?

Why throw this twig where feet do trod,
Whose hard snap charged the air,
Of calm against a sun-lit sky;
And go this way of all things fair,
And disappear with other dust?

—J. Stanley Henninger.

TAILORS and CLEANERS

GEORGE A. SAUL, Tailor. 1115 Broadway

It was Tolstoy, wise old Russian writer and philosopher, who warned us: "When you begin giving to the people they stop producing."

Mind Your Business

An exchange says we wouldn't worry so much about what people think of us if we realized how seldom they do.

THOUGHT THE ESSENTIAL

What matters if the Savior lived on earth?
The Savior THOUGHT gives to redemption birth.
Not persons, but Ideals rule
The messenger is but the tool.
You can the bearer crucify,
Love's message, tho, will never die.

—Otto Schkoelziger.

NEW TELEPHONE DIRECTORY

Revisions of existing listings will be included in the next telephone directory if they are received at the business office of the Southern California Telephone Company by the close of business on May 14, according to A. V. Engel, telephone company manager. New listings will be included in all cases in which installations have been completed by that date. The book is scheduled to be delivered the first part of July.

Paying For New Deal

If you had been given one dollar for every minute that has elapsed from the time of Christ down to the present day, you still would not have a billion dollars. Our debt is 40 times that much!

Beauty and Honey

It is estimated that, should bees perish from the earth, more than half the flowers would vanish, also.

British Fiasco

According to English statistics, **about one person in every three** in Newfoundland is receiving relief.

British Blockade Back-fires

Loss of Danish and Norwegian markets for her wheat seriously hurts Canada's economic outlook.

Notary Public in and for the County of San Diego, State of California.
Date of publication May 6, 1940.

SUMMONS
Superior Court State of California
County of San Diego
No. 98015

Emil Gotliep Boettcher, Plaintiff vs. Mary Katherine Boettcher, Defendant.

Action brought in the Superior Court of the State of California in and for the County of San Diego, and the Complaint filed in said County of San Diego, in the office of the Clerk of the Superior Court.

The People of the State of California send Greeting: To Mary Katherine Boettcher, 2845 - 29th Street, San Diego, Calif., Defendant.

You are hereby directed to appear and answer to a complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of San Diego, within ten days after the service on you of this summons—if served within this County; or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said Plantiff will take judgment for any money or damages demanded in the Complaint, as arising upon contract or will apply to the Court for any other relief demanded in the Complaint.

Given under my hand and seal of the Superior Court of the County of San Diego, State of California, this 6th day of November, 1939.

J. B. McLEES, Clerk.
By T. W. Sexton, Deputy.
Henry W. Hache

democracy

By Charles H. Ingersoll
(Of Dollar Watch Fame)

PHILADELPHIA, (Radio Broadcast),—

The new school of economics is making headway even among its enemies; what then must it be doing among its friends? Editor de Aryan, of San Diego Broom, is not —nor has he been—any special partisan of Editor Beckwith, of Stockton. Yet the San Diegan is lecturing at fraternities and in Y. M. C. As., on the new 1940 **Revised** Economic System of Henry George, which displaces the minor element of LAND—including the earth, the sea and all things therein, with that reflection of those things, RENT. This must mean that de Aryan has seen what I am unable to: that he can 'Sell Henry Goerge' better or faster by using the word **rent** than **land.** In fact, I can't see how any one—of any grade of intelligence—can understand rent any better than what it flows from—land. He also stresses the other Beckwithian doctrine that rent (not being for land) is for services, and not merely for public, collective service, but for any conceivable service; thus (to my mind) winding up close to nowhere.

Ingersoll

Education and the Judiciary seem to move on divergent lines sometimes. New York's 'higher education Board' appoints a famous 'philosopher' to its faculty; but Judge John W. McGeehan vetoes these educators. And does this make the college people feel good? That's the beauty of municipal ownership of colleges; and in a city of modernized politics. It is rather shocking to consider these two men in a dozen or so characteristics. But education, as well as the Supreme Court, Mr. Dooley said "follies th' ilection returns".

"The New View" of economics is officially set up by Prof. R. J. Otto in The Forum as follows: (1) Rent is for service; (2) Rent is not for land; (3) Rent is not for bounty of nature; (4) It is for **activity** on **other** land; (5) Rent is a factor in price; (6) It is included in every bill men pay; (7) It is the great evener. The "old view" is that rent is an evener on **productivity** of the land, influenced by service and pressure of population. This includes 'bounty of nature'. As an evener it cannot be a factor in price. This statement nullifies the other alliteration, in spite of the editor's citation of this new recruit 'as not having to unlearn things in the single tax wilderness'. The title, "Significance of Rent", should begin with recognition of rent for use of land as distinct from rent for monopoly of it. This might remove the complex that calls for these 7 reversals of economic reality, some of which are true of monopoly rent.

Harvard has a hasty pudding club. And I'll gamble that not a graduate of Harvard this year has any idea what hasty pudding looks like. I haven't seen or heard of one for half a century. It is the simpliest, cheapest and most wholesome of all cereal dishes. It has but two ingredients, unless a pinch of salt be a third,—corn meal, white or yellow, water; just cooked in a kettle indefinitely. Try it some day.

SELECTING A PRESIDENT

This year again I am being presented with a slate of delegates to the Republican convention for the nomination of a candidate for President of the U. S. A. The ballot is a farce, a sorry farce. The names on the ballot are placed there by irresponsible politicians. The people at large know none, or very few and the ones they know they would never trust, if they truly knew them. It's a cooked up politician's game. Choose between tweedledee and tweedledum. Under the circumstances I shall cast a blank ballot after going through the motions of signing the precinct book to keep the record straight. Writing-in names is a hopeless procedure. By the present means the people disqualify themselves in advance from selecting competent individuals for the presidency.

PREMATURE—BOTH WAYS

S. D. Union Editorial Scores Bullseye

"ALTHOUGH WAR news from Norway is discouraging to the Allies and is creating jubilation in Germany, it is by no means decisive . . .

"The difference between the temperaments of the British and the German peoples has a stronger bearing upon the eventual outcome of this war than any immediate victory in a particular sector . . .

"Whereas the British become more dogged and determined in the face of defeat, their foes react precisely the opposite . . . "

* * * *

U. S. Germans Prove It, Too

The truth of the above quotations from the San Diego Union of May 1, is demonstrated in the U. S. A. Here the Germans are an even better type of people than those left in Europe. Their forefathers, and many themselves, came across the ocean to escape tyranny, they were not in favor of autocracy in any form whatever. But because during the previous world war Germans were persecuted in America and are being persecuted already today with all sorts of discriminations,—many lost their jobs with large corporations, through pressure by Jewish stockholders, for no other reason than their being born in Germany,—many German-origin citizens of the U. S. A. are slinking around like yellow dogs afraid to call their soul their own.

The Contrast

Not that I want to boast, but for the sake of illustration I shall speak for myself as a telling example. My father was Greek, my mother was red-headed and Polish, I was born in Roumania, raised in German-Austrian schools where I learned ORDER and SYSTEM as well as DISCIPLINE. I inherited a deeply religious nature from both parents. The warm south of the Greek, the sturdy north of the Pole, blended with Roumanian impetuity and German thoroughness, tempered by Austrian diplomacy, for Austria-Hungary was a diplomatic union of varied peoples, absolutely necessary to their wellbeing as results prove now.

By temperament I am an Anglo-Saxon as paradoxical as it may seem. I was "at home" among the British engineers in the Orient; we were "gentlemen" and I went them one better because of my background. Finally I had to leave British employ because I refused to exploit Hindoos for low wages when we could have paid them twice the scale and made money, even more money. The British policy was to keep them at starvation wages to hold their spirit in subjection.

But in adversity I am the most dogged optimist. That makes me an American. I am firmly rooted in the divine rights of man. Here it was incorporated in our Declaration of Independence and the Bill of Rights. Now that the Jews and FDR are trying to rob us of our divine rights, I, the sunworshiper and reincarnationist, vegetarian and mystic am defending the principle against all odds. **The Germans who came here for the same reason I did,** are running to cover. I am standing for the original ideals of our Founding-Fathers in spite of hell and damnation. I run a paper for that sole reason and not to make money. I speak over the radio and I stake my life on exposing all conspiracies against our divine rights, be they labor racketeers, Jewish boycotteers, New Deal soboteurs and the President himself. I am a sunworshiper, a mystic who will never submit to the rule of ignorance over intelligence and the LIGHT of Truth never fails me.

ROOSEVELT LEADS TO WAR

(From Radio Talk, KGB, Thursday 8:30 p. m.)

Dr. John T. Madden, dean of commerce at New York university, speaking before the Wowen's Finance forum in Chicago explained that Great Britain and France did little to prepare for war because "they judged that this country would aid them in the event of conflict". They believe the United States will enter the war on their side if President Roosevelt is reelected, said Madden. Now that is a nice state of affairs for us who imagine that we live in a democracy.

GEORGE JEAN NATHAN; AND THE OTHER HOG

By Whidden Graham

NEW YORK,— Ernest Boyd, an Irisher with red whiskers that makes him resemble the handsome young man that I was 40 years ago, tells a bored and uninterested world that George Jean Nathan hasn't the slightest interest in the "Single Tax"; Henry George's remedy for unemployment and poverty. Well! Well! what of it?

Which reminds me of Red Peter, who lived on a Nova Scotian farm for several years during the World War period. Peter had not the slightest interest in the murder of millions that was going on in Europe. The only that thing that he was interested in was swill.

One day the farmer took Peter out behind the barn and cut his throat. Peter was a Red Duroc hog.

George Jean Nathan is a smart Jew who has made a lot of money by writing about the filthy mess of sex plays produced by our mostly-Jewish theatrical managers. Of course he isn't interested in Single Tax. He hasn't brains enough to understand Progress and Poverty, even though he should try to read it. He is a fake "literary" parasite, who is accepted as an authority on the theatre by our millions of city morons;—spawned out largely from the slums and ghettoes of Europe. Neither Nathan nor Boyd have the slightest interest in the sufferings of the unemployed millions. All that they are concerned with is their swill:— unearned food and booze.

And these be thy gods, oh people!
And these be the vows you make.
In the drool of thy High Priest Nathan,
In the house of the Great God, Fake!

ROSES

In my hours of repose
I traverse the distance through
In the fragrance of a rose . . .
With a sigh I am close to you !
—Oliva M. Diaz.

"MAN" versus DOG

Once upon a time there was a certain Dutchman who found living a greater effort than he relished. He found no surcease from trouble. He gazed long at his dog, and then soliloquized: "You vas only a dog, but I vish I vas you. Ven you go your bed in, you shust turn round dree times and lie down; ven I go to bed in, I haf to lock de blace, and vind up der clock, and put out der cat, and undress mineself, und mine vife vakes up and scolds, and den de baby vakes up and cries and I have to valk him der house around, and den maybe I get mineself to bed in time to get up again. Ven you get up you shust stretch yourzelf, dig your neck a leedle, and you is up. I haf to light der fire, put on der kettle, scrap some wid my vife, and get myself breakfast. You blays around all day and haf blenty of fun. I haf to vork all day and haf blenty of drouble. Ven you die, you vas dead; ven I die, I half to go somevere again!"

Poor Snyder!

OUT OF A JOB

(From Radio Talk, KGB, Thursday 8:30 p. m.)

One of our San Diego radio fans writes me as follows: "I listened to your radio talk last Thursday. Got to thinking what are all these people going to do, or rather take up again, who never started anything while here on earth . . . when they come back?"

He is referring to my talk of last week on reincarnation. If you look up The Gospel according to Luke, Chapter 19, verse 26, you will get the correct reply. It will explain to you the number of people who are unemployed today and who holler for old age pensions. So look up Luke 19, verse 26.

SIX GUILTY OF EXTORTION

NEW YORK,—Six men, four of them A. F. L. union officials, were convicted of having extorted $9000 from fruit and vegetable dealers. They will be sentenced May 21. Witnesses testified that tribute was exacted from the dealers under threats of strikes, picketing and an embargo upon their supplies.
